

DeAnna Roberts Helen, Georgia

DeAnna Roberts of Helen made the decision to do the Atlanta 2-Day Walk for Breast Cancer in 2008 in honor of her grandmother who is a 15-year survivor.

DeAnna remembers when her grandmother was making the decision about whether or not to have chemo; she was told that she had a 60% chance that it would come back, but her grandmother decided to take the chance because she said that was a 40% chance at life.

DeAnna thinks her grandmother is one of the bravest women that she knows and hopes that by walking for her it will help us be one step closer to finding a cure or at least earlier detection.

She chose to join the Circle of Friends team because her mother-in-law Donna Andrews was already a part of the team from the previous year and DeAnna had heard such good things about them.
