

## WHY I'M WALKING IN THE TWO DAY WALK FOR BREAST CANCER

I walk in honor of my dear sister-in-law, Brenda Grant, who lost her battle with Breast Cancer after only one year. Also for her children Scott and Amy and Grandchildren Brendan and Bailey, whom she never got to meet.

As time goes by I miss Brenda and her beautiful smile. It is such a blessing to walk for her because I feel she is by my side cheering me on.

A quote that reminds me of Brenda is: "Some people come into our lives and quickly go, leaving footprints on our heart and we are never the same again."

I'm walking to make a difference so other families will not have to suffer losing someone they love to Breast Cancer. I hope to influence others of the importance of having a mammogram. If only one person has a mammogram as a result of my walking, it will be worth it. Life is so precious, we take so much for granted.

I walk so someday there will be a cure for Breast Cancer!!
